PROFILE SUMMARY

Aspiring DevOps Engineer with hands-on experience in Kubernetes, Docker, Jenkins, Git, AWS, and CI/CD pipelines through personal projects and lab environments. Passionate about automation, cloud technologies, and implementing secure best practices for reliable application delivery.

EDUCATION

IFTM University

Moradabad, Uttar Pradesh

Bachelor of Computer Applications

2022 – 2025

- Top 10% in Academics
- Completed (BCA) with strong academic foundation
- Successfully implemented DevOps and Cloud concepts through self-driven projects

SKILLS

Technical skills:

Tools: AWS, Linux, Git, GitHub, Docker, Kubernetes, Terraform, Ansible, Jenkins, CI/CD

EXPERIENCE

- Implemented an end-to-end DevOps Automation pipeline for an e-commerce full stack application
- Orchestrated k8s Pods in scalable AWS EKS Cluster to improve uptime by 99%
- Containerized applications using Docker and managed deployments through Kubernetes.
- Maintained security and robustness of the application with Docker Private registries and secrets manager.
- Automated CI/CD workflows to streamline code integration, testing, and deployment processes.

PROJECTS

End-to-End DevOps Automation for E-Commerce Application

Tech Stack: Jenkins, Docker, Kubernetes (EKS), AWS, Terraform, GitHub, SonarQube, Trivy, Prometheus, Grafana

- Automated AWS infrastructure provisioning with Terraform.
- Built an end-to-end CI/CD pipeline using Jenkins and GitHub.
- Containerized and deployed a full-stack application on AWS EKS using Docker and Kubernetes.
- Integrated security scanning, monitoring, and secrets management using Trivy, Prometheus, Grafana, and AWS Secrets Manager.

Serverless application deployment on AWS

- Implement serverless applications to reduce infrastructure costs.
- Designed Lambda function with secure API Gateway integrations with backend databases on DynamoDB to reduce cost by \$800 monthly.

ACHIEVEMENTS

- Built and managed a student cloud community, helping peers learn AWS and modern cloud technologies
- Secured rank 2nd in academics and assisted teachers with Assignment design and quizzes.
